**MASTER BUILDER APPRENTICE OF THE YEAR — GARDEN STATION**

On Friday the 9<sup>th</sup> of November, Voyager 1 attended the Registered Master Builders Apprentice Final. We were supporting and cheering for Corban Mills who was competing to build our school a Garden Station. Corban had to design and build the station in competition with other builders. He designed our station with shelves, troughs and a planting area with shapes cut out of the sides. It was very exciting to watch Corban building quickly to finish on time. Whilst we waited we made flowers to decorate our station. Corban came second in the competition and we are very proud of him. The Garden Station has now been delivered to school and sits in our garden orchard ready for potting plants. Thank you to Carters for sponsoring this event.

### INTERMEDIATE 2019

A reminder that Intermediate uniform orders are now being processed for 2019. All Intermediate uniforms MUST be completed and paid in full by December 7 to ensure that your child has uniform to start 2019. If you have any queries about this please do not hesitate to contact the office. If your child is not returning to Redoubt North for Intermediate we would appreciate notification of which school they will be attending as soon as possible.

### FESTIVAL OF QUILTS

We were delighted to have the opportunity to display some of the students quilts at the recent "Festival of Quilts" exhibition. This was organized by Mrs. Robyn Burgess of Patchwork Passion. Students were given the opportunity with free tickets to attend and see their quilt hanging. Corey Gilbert, seen in the photograph with Mrs. Burgess is experimenting with a Long Arm Quilting machine. Well done Corey, you are very clever!

### YOUNG OCEAN EXPLORERS

Underwater cameraman Steve Hathaway from Young Ocean Explorers visited our school last week. He told us stories of his adventures with Whales, Sharks and marine life. Steve also showed us film footage of the litter and rubbish that is floating in our seas. The marine life thinks this is food and when they eat it they become sick and die. Steve explained that if everyone in our school picks up 1 piece of plastic a day, we would be recycling 255,500 pieces of plastic a year! That would be a big help to our marine life. Steve Hathaway has written a book "Love our Ocean" This is available for purchase by following this link
